

Main page

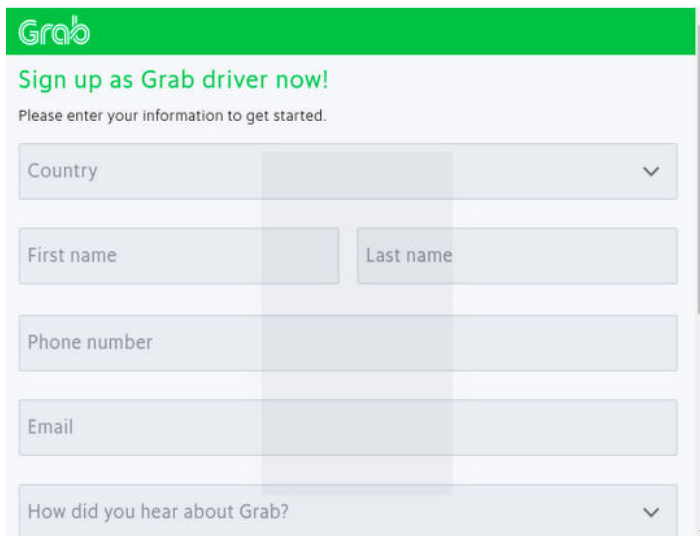

Account info left side--
should be able to
look around but not able to
volunteer or post

- Volunteer selects a node on the map, details are pulled up regarding the nature of volunteering task (including current number of volunteers), then they can select “volunteer”, “contact poster”, or “notify a friend”
- Volunteers can only see the general location of task until poster confirms volunteers request to help. This helps prevent weirdos / bad guys from doing weirdo / bad guy shit.
 - Segment map into areas
 -

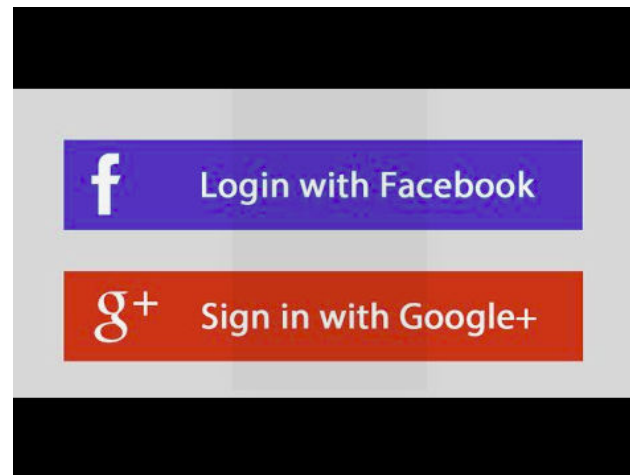

Sign up / login

- OAuth sign in with google / facebook?
- Option to link account with facebook / linkedin.

The image shows a sign-up form for Grab. At the top is a green header with the 'Grab' logo. Below the header, the text 'Sign up as Grab driver now!' is displayed in green, followed by 'Please enter your information to get started.' in grey. The form contains several input fields: a 'Country' dropdown menu, 'First name' and 'Last name' text boxes, a 'Phone number' text box, an 'Email' text box, and a 'How did you hear about Grab?' dropdown menu at the bottom.

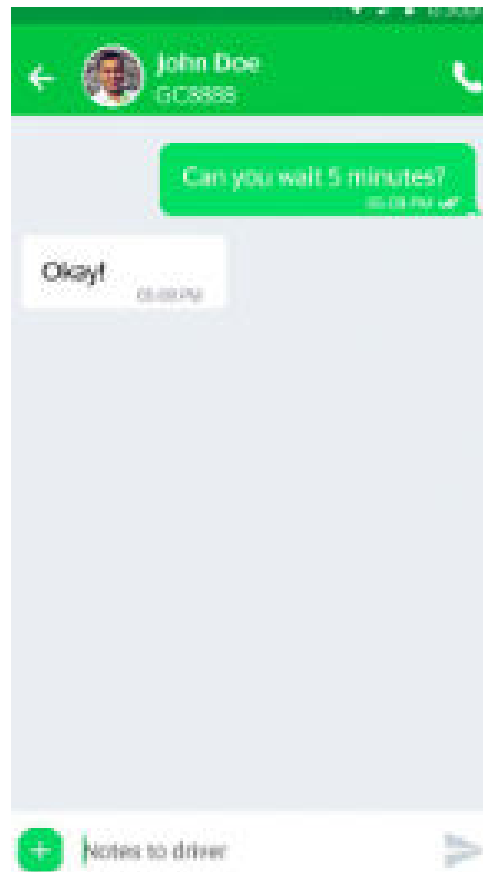

Listing page

- After volunteering is complete, poster taps “complete” and gives volunteer a rating. Subsequently, volunteer gets notification and rates the poster.
- Points then added to volunteer.
- Times volunteers have helped also gets recorded under profile of poster
- Listings should include title, category?, estimated time, and max number of people that can volunteer for the task.

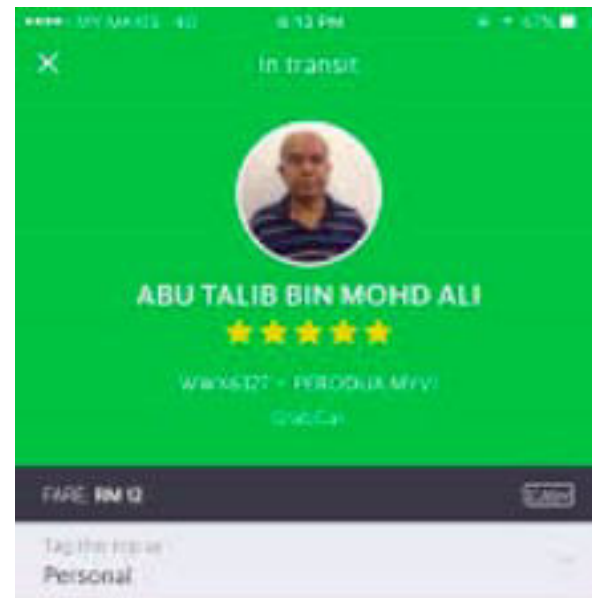

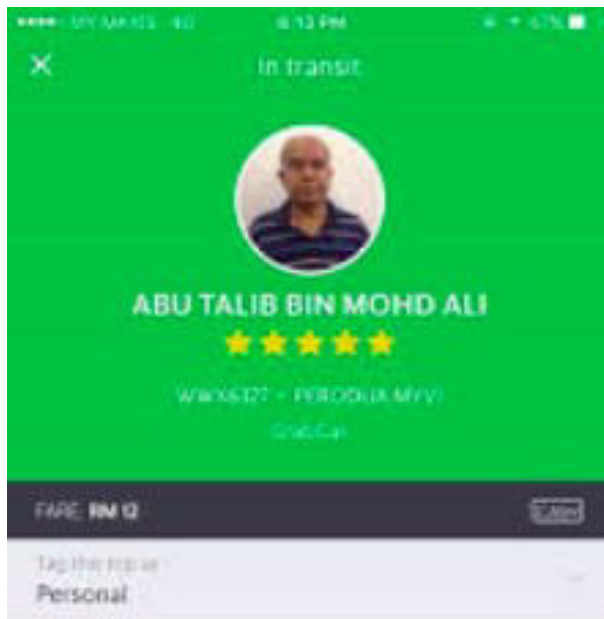

The screenshot shows the 'List Your Space' form on the Airbnb website. At the top, there's the Airbnb logo, a search bar with the placeholder 'Where are you going?', and links for 'Sign Up', 'Log In', and 'List Your Space'. Below this is the heading 'List Your Space' and a subheading 'Airbnb lets you make money renting out your place.' The form itself is a light gray box with the following fields: 'Home Type' with a dropdown menu showing 'Apartment', 'House', 'Bed & Breakfast', and 'Other'; 'Room Type' with a dropdown menu showing 'Entire home/apt', 'Private room', and 'Shared room'; 'Accommodates' with a dropdown menu showing '1'; and 'City' with a text input field containing 'San Francisco, Rome, Milano...'. Below the form is a red 'Continue' button. At the bottom, there are three sections: 'Trust & Safety' with a shield icon and text about safety tools; '\$1,000,000 Host Guarantee' with a dollar sign icon and text about the guarantee; and 'Secure Payments' with a lock icon and text about the payment system.

Contact Poster

- Chat feature between poster and volunteer regarding inquiries of the task.

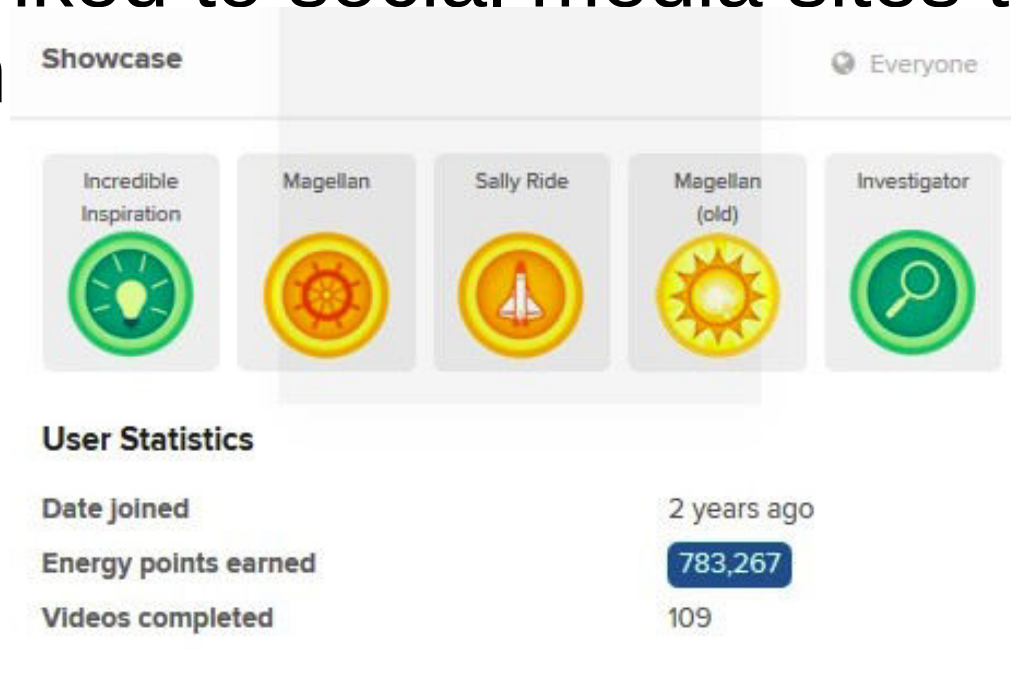

Review / rating system both ways

Points equal badges

- Volunteers gain points based on time spent volunteering (should we include what kind of volunteering?)
- After a certain number of points reached, badges unlocked
- Badges linked to social media sites to show good sam

Things to think about

- Liabilities (what if volunteers get hurt?)
- Weirdos (what if poster is actually a serial killer?)
- Legal stuff
- Would it be cool to include leaderboard?
- Users can't see the exact location of the poster until poster has accepted volunteer offer
- Should posters be able to sign up as organizations AND personal account? (ex. Local soup kitchen, old lady that occasionally needs help)

Schema
